Fire Protection Price Increase PL-2021-1

To Our Valued Customer:

Victaulic works diligently to control operational expenses through the implementation of various cost containment strategies and lean initiatives. These actions alone cannot address the increase in overall cumulative costs. Despite our efforts to control operational expenses, we deem it necessary to increase prices for all **Fire Protection products** by 8%. This increase is effective on all orders received after the close of business on Friday, October 29th, 2021.

To stabilize our inventory levels and ensure business continuity, order limits by allocation have been put in place from now until close of business Friday, October 29th, 2021. Contact your local Victaulic sales representative for the details of allocation.

The updated price list will be available in Excel and .pdf format today Friday, October 15th, 2021 on the Victaulic website. To access these, please visit victaulic.com and click on the "Price Lists" link under the "Resources" tab.

Thank you for your continued support. At Victaulic, we continue to work hard to provide the highest quality, most reliable piping system solutions to serve your business needs.

Your local Victaulic sales representative can answer any additional questions you may have regarding this information.

Sincerely,

A handwritten signature in blue ink that reads "Gary Moore".

Gary Moore
Executive Vice President
